(to dial destination)

*30*xxxx*yyyy#, where

xxxx – old password (default 1111)

yyyy – new password (user choice)

- Call Waiting

Assignment
*43#

Cancel

#43#

During talk of A with B, when A is dialed by C, – while talking the user A hears short beeps in phone (like on mobile phone at "second connection"). On pressing "flash"(star) and

0 – user C gets signal "Busy", A and B talk continues;

1 – connection switches to users A and C, user B – on hold;

2 – return to user B.

IMPORTANT!

Services should be assigned / canceled only via tone dial.
If impulse dial is on – assignment / cancel do no work!
